All sign applications must be accompanied by plans and elevations drawn to a standard scale in accordance with the dimensions listed above and illustrating the following:

- 1) an accurate representation of all proposed signage;
- 2) the exact location of the sign to its extreme edge or face;
- 3) the methods of attachment, structural support and illumination;
- 4) a master inventory by plan or photograph of all existing signs showing type, size, exact location and including dimensions of exterior walls.

Notes: Large signs will require structural certification by a NH registered engineer.  
Electronic message centers will require a minimum of five seconds duration on displays with changing prints.  
Illuminated signs require a separate electrical permit.
